Another Successful Year at GSHS

I would like to thank you once more for your continued support and also the great level of interest many of you have shown in our school this year.

Our school has an extremely positive ethos, with very strong pastoral and academic guidance and a real emphasis on learning. We want the school to be at the very heart of the local community and to be the school of choice of all who live here. We are therefore delighted that we are oversubscribed again next year and will be welcoming 228 new students in Year 7 in September.

We are delighted that so many parents are choosing our school and it shows a great deal of support from our local community.

We have had to make some new staffing appointments to cater for these increased numbers and to ensure that the average class size across the school remains as low as it always is, at fewer than 21 students per class.

We continue to work very closely with all of our seven feeder Primary Schools to ensure the transition for the children will be as smooth as possible and we will be offering opportunities, as we did last year, for students to visit the school during the course of next year.

As well as expanding the staff to cater for increasing numbers of students we are saying farewell to the following Teaching Staff: Mr Freed and Miss Pattinson leave us after a successful year here covering maternity leaves, and Miss Beswick leaves the Maths department for an exciting opportunity overseas. Mr Kearns will be replacing her in September. From the Support Staff we have two members of staff retiring: Mrs Mould and Mrs Broadley, who have worked here for nearly twenty years each. Mr Jarvie, the Year 7 Guidance Manager, is also leaving for an opportunity in another local school.

The new Guidance Manager for Year 8 next

year will be Mr Fraser Patrick, who has worked here for the last eighteen months. We wish all the staff leaving us the very best for the future.

We undertook, as we do each year, a Parental Survey at every Parent Evening and this year we had over 500 parent survey forms completed. The responses were very positive indeed, with over 90% of parents agreeing or strongly agreeing to every question. More parents than ever said their children were happy here (98%) and that their children feel safe and are well looked after (99%). 99% of you also agreed that the school is welcoming and friendly towards parents and over 95% of you would recommend our school to another parent.

Finally, we have done a lot of work as a school around attendance this year and we are delighted to report that student attendance has been higher this year than it has for several years.

We would like to thank you once more for your continued support and would like to take this opportunity to wish you well for the summer holiday.

Mr I Wilkinson: Headteacher

Dimensions Day June 2019

"The students were once again a credit to the school. All of the external guests said how fantastic and impressed they were with how welcoming and polite our students were, and how their enthusiasm shone through."

Continued on page 5

Operation Encompass

George Stephenson High School has been part of 'Operation Encompass the Next Steps' (OEtNS) which has now been fully launched in North Tyneside.

OEtNS aims to break the cycle of Domestic Abuse by ensuring prevention and earlier intervention through education and support, raising awareness about domestic abuse and

the impact it has.

A key component of OEtNS is education in schools which aims to ensure children and young people learn about healthy relationships, recognise abusive relationships and know how to help themselves and others.

Within Health Education lessons there is a spiral

curriculum, revisiting and building on learning each year, which ultimately promotes the understanding that abusive relationships are not acceptable.

Three sessions have been written for each Key Stage provided by Operation Encompass under the three core themes identified in a domestic abuse curriculum, emotions, relationships and friendships and rules and boundaries.

As part of OEtNS, all schools in North Tyneside, including George Stephenson are allocated a School Safeguarding Liaison Officer (SSLO) to facilitate 'drop-in' sessions so that children, parents /carers or school staff can talk and request advice about Domestic Abuse.

Our SSLOs are Tim and Dale who have delivered a session already to Year 10 students about healthy relationships and the impact of domestic abuse.

Mrs C Patrick: Assistant Curriculum Leader; PE

Online Safety Certification

In all Health Education lessons all students have completed an Online Safety Certification.

This is to coincide with student voice in which it was identified that there was a lack of information to keep themselves safe online. This also meets the new Statutory Requirements of the PSHE curriculum that will come into effect from September 2020.

All students have worked individually on the computers to complete modules in: Online Bullying; Grooming; Live Streaming; Safe Use of Smartphones;

Digital Footprints, Health Risks; Sexting; Consequences and Reporting Concerns.

Each of these sections have links to websites that students can access for help and further information, Powerpoints, videos, the law, news stories and help and guidance. At the end of each of each section students had to complete an online test in which at least 80% must be scored. Once all sections were completed students obtain their certification.

Mrs C Patrick: Assistant Curriculum Leader; PE

Year 12 Court Trip 2019

On Friday 28th June, Miss Bennett, Miss Tate and Miss Howard took a number of Year 12 Psychology and Sociology students to the Crown Court in Newcastle for the day to experience the mechanisms of court.

The students got to see how the criminal justice system works and were able to relate this to their A Level Studies. Students were able to witness a number of trial, including a murder case which many found fascinating.

As in previous years, this has been a fantastic opportunity for the students and has inspired many to consider Criminology as a field of study at University.

Miss R Bennett, SENCO

El Torero Trip

We had a fantastic trip to El Torero, a Spanish Tapas restaurant in Newcastle.

We sampled a few Tapas including Paella, Croquetas, Albondigas, Pollo al Vino Blanco y Pan al Ajillo. Our favorite Tapas was Potatas bravas, roast potatoes in a spicy sauce. It was an authentic Spanish Restaurant with Spanish art on the walls, Spanish staff and the menus

were in Spanish. It was the first time many of us had tried tapas and we would highly recommend it.

Miss L Prior: Curriculum Leader; MFL

New Rules

In April, George Stephenson High School welcomed 'New Rules' into school who did performances and Mental Health Workshops for the whole of Years 7 - 9.

"Great energy, great message"

They performed some fantastic songs and spoke to students about mental health and their experiences. They took the time to meet with the students after the performances to answer any questions, sign autographs and to take photos. The atmosphere was amazing!

"This was simply epic!"

"The music really spoke to me and I felt they could relate to me."

"It was good to listen to their experiences."

Mrs C Patrick: Assistant Curriculum Leader; PE

School Physicist of the Year Award

"Well done to Nathan Carter in Year 10 who won the School Physicist of the Year Award which celebrates the achievements of the regions future STEM graduates in partnership with NUSTEM and the Ogden Trust".

Atomic Girls

Five of our brightest Year 8 female scientists attend the regional 'Atomic Girls' event which recognises the vital role aspiring female engineers and scientists can play in making an impact on global economic matters and celebrated International Women in Engineering Day 2019.

In partnership with Capita PLC our budding engineers attended the cross-curricular workshop and applied their STEM knowledge and skills to create a transport solution called 'The Lunar' which aimed to provide sustainable and free travel facilitated across North Tyneside.

Mr D Narcross: STEM Co-ordinator

Junior Maths Challenge 2019

This year we entered 27 pupils from Years 7 and 8 to take part in the UKMT Junior Maths challenge.

Over 270,000 students from across the UK sat the Junior Maths Challenge with roughly the top 6% receiving a gold certificate, the next 13% silver and the next 21% bronze.

The UKMT Individual Maths Challenges are

lively, intriguing multiple choice question papers, which are designed to stimulate interest in Maths in large numbers of pupils.

This year, we had 2 students gaining gold certificates, 3 silver and 12 bronze. Our top performing student was Aragorn Nichol in Year 8 who was one of approximately 9200 of the top students that qualified for the next round of the competition, the Junior Kangaroo.

We would like to congratulate everyone who took part and represented the school so well.

Mrs L Riccalton: Teacher of Maths

Girl Power

Can you imagine having a mentor when you were a teenager, who helped guide you and open doors into your chosen career? Can you imagine going to careers events in which you are able to find out about the different jobs that are available? Would you have loved to experience different situations and opportunities to help build your confidence and believe in yourself and what you can achieve as a teen?

The Girls' Network is a charitable organisation which aims to do all of the above and is currently working with twenty four of our Year 9 and 10 girls - and proving to be a huge success!

Each of the girls, who were carefully chosen to take part in the project is assigned their own mentor, often from the field in which they would like to work as an adult, or sometimes because the mentor and the student are well matched in terms of personality or interests. Each mentor was very carefully allocated and meets with the students for an hour every couple of weeks over the course of a year at Tesco Bank at Quorum Business Park, an organisation which is heavily involved in the programme. For example, one student who would like to teach English as a foreign language, and is currently teaching herself four languages including Mandarin, has been matched with a mentor who frequently travels the world as part of her job.

Another student has been matched up with a woman who is very successful in the gaming industry, the career that she has already decided upon, but which might prove difficult to get into without the help and guidance of someone already in the business.

The girls are encouraged to keep in touch with their mentors in between the meetings via email rather than text - part of helping them to understand how to act in a professional way - and have already formed very strong, positive relationships with their mentors.

Membership of The Girls' Network lasts for life – the girls may not always have formal mentoring sessions, but they will always have access to a network of women from all walks

of life who are committed to supporting them in their careers.

In addition to the mentoring sessions, the girls are given the opportunity to take part in careers events, such as one held recently at The Northern Design Centre at Gateshead Quays. This gave them the opportunity to meet and speak to women working in a wide range of creative industries and to find out about different career paths, ask questions and form an understanding of creative fields, and what opportunities may be available to them in the future.

Whilst clearly this is not the route that all students want to take in the future, the event was incredibly successful and gave the girls the opportunity to speak to professional women in a professional context who they had never met before - clearly developing their confidence and communication skills. In addition, some girls had real "light bulb moments", in one case deciding that she would like to pursue a career in Fashion Marketing. We even managed to provisionally arrange work experience for a couple of students as a result of the session.

Following this event, the group enjoyed a lovely lunch at SIX Restaurant at the Baltic Centre for Contemporary Art and marvelled at the amazing views of our city – not least from the ladies' toilets! We then headed to Jump Design Studio, the company who designed our school logo and rebranded the school back in 2009, for a presentation on how the company design logos and branding. Again, this experience gave the girls an insight into the wide range of careers that might be available in the future, in their own city, that they perhaps had never envisioned.

Abbie Martin, Year 10, is one of the students involved in the project and has commented

that "The Girls' Network has opened up many opportunities for me and the other girls involved. Through the programme, I have been able to widen my knowledge of the workplace and understand that there are many opportunities for girls in the economy, as well as enjoying the activities involved." Other girls frequently comment that they "feel more confident" speaking to people as a result of the project. It is a source of real pride and satisfaction to actually see girls who were previously very nervous and shy have the confidence to speak to adults and in public in a way that they never would have before.

So, what's next for the group? Well, Tesco Bank have funded all of the girls involved in the project to take part in The Race for Life Pretty Muddy Event on Newcastle Town Moor on Saturday 13 July. Apart from hopefully raising a significant amount of money collectively for Cancer Research, this event is sure to build team work skills and confidence in a way that perhaps no other event could! Almost all of the girls involved in the project have signed up to take part alongside their mentors and a couple of staff from school, even though many will be very much out of their comfort zone!

Watch this space for events and activities that the girls will be involved in over the next sixth months. Who knows what the future holds...

If you would like to support the girls in their team fundraising efforts, please go to the following link or contact me at the school.

<https://fundraise.cancerresearchuk.org/team/tesco-bank-the-girls-network>

Ms L Simpson: Assistant Headteacher

Another Dimension

Congratulations to all of our students for another fantastic Dimensions Day on 27th June. A beautiful Killingworth summers day saw all of our students getting fully involved in a variety of events and activities.

Firstly Year 7 participated in a LORIC Olympics, competing to prove how well they have developed the LORIC skills through iLearn this year. Events included bean carrying and paper bag making and students were very creative in their efforts! They then went into Newcastle to watch their stop motion films on a big screen at Newcastle University before making a quick trip across the road to the Great North Museum to visit 'Dippy the Dinosaur', on tour from the Natural History Museum.

Year 8, meanwhile developed their enterprise skills with the Newcastle United Foundation and were then treated to a number of interactive workshops, involving several robots, where they found out about a variety of businesses and the wide-ranging employment opportunities they provide.

Year 9, inspired by a guest speaker in the morning, were challenged to develop their public speaking skills. They researched and designed their own speeches and the day finished with 20 students standing up in front of the whole year group to deliver them. It was a fantastic, and at times emotional, experience with some teachers even shedding a tear.

Year 10 students completed a 'Challenge the Champions' workshop run by 'Medical Mavericks' where they experienced different activities such as trying to run faster than Usain Bolt, measuring their speed through electronic testing mats. Students also got to see if they were going to grow anymore using special scanning equipment! Show Racism the Red Card educated about the causes and consequences of racism and explored the various forms racism can take. Blue Sky Trust also delivered some excellent sessions on relationships, self-esteem and the wider world.

Year 12 students were looking at life beyond the 6th form. In the morning, they took part in a 'Budgeting Bonanza' workshop with Newcastle University, where they looked at managing student loans and useful ways to

save money whilst studying at university. They were also extremely fortunate to have guest speakers from the Samaritans who discussed the very important topic of 'Emotional Health and Wellbeing'. Continuing with the well-being theme, students then took part in Arts and Crafts Therapy, led by Year 12 student Abbie Dixon, and then spent the afternoon honing their cooking skills as they prepare for life beyond school by researching preparing and buying their own ingredients for less than £5. There wasn't a Pot Noodle in sight. They worked fantastically as a team to cook a range of tasty dishes!

The students were once again a credit to the school. All of the external guests said how fantastic and impressed they were with how welcoming and polite our students were, and how their enthusiasm shone through.

The Dimensions Day Team

Think Law Graduation

Scott McKie and Elizabeth Murray attended their Graduation on Wednesday 3rd July after successfully completing the Think Law programme. Throughout Year 12, they have attended a number of workshops led by some of Newcastle's most prestigious Law firms, including Muckle LLP, Sintons Law and Womble Bond Dickinson.

They have been developing their interview skills, personal branding, networking and communication skills, in anticipation of applying to study Law at University. Scott and Elizabeth were awarded their certificate by Councillor Peter Early, who is in charge of Children, Young People and Learning. As a result of taking part in the programme, organised by Career Ready and the North Tyneside Learning Trust, both students will complete a week of work experience in July at North Tyneside Council's Legal Services.

Miss R Tate: Sixth Form Guidance Manager

NTLT Star Awards 2019

This year GSHS were delighted to have three finalists at this year's Star Awards, held at The Assembly Rooms on Tuesday 2nd July. Year 8 student Daniel McTiernan was nominated for the Local Hero award, Year 12 students Ben Gardner for the Achievement Award and Flinn Jarman, also Year 12 for the Resilience award.

The awards ceremony was a wonderful evening dedicated to celebrating the success of the finalists with a pizza buffet, sweet cart, candyfloss stand and a photobooth.

All finalists received a goody bag worth over £150! We are extremely proud that 3 of the 48 finalists were George Stephenson, High School students. The trust received a whopping 700 nominations this year from

over 40 schools across North Tyneside, making it even more special that the personal and academic achievements of Daniel, Ben and Flinn were recognised and celebrated. Well done!

Miss R Tate: Sixth Form Guidance Manager

Year 6 are Ready for High School

Our Year 6 students are certainly ready for high school in September! They have been taking part in a range of exciting activities as part of our first ever High School Week.

In their Year 6 classrooms, they enjoyed taster lessons in Spanish, Maths and English delivered by GSHS staff in our Primary Schools. They also received a GSHS pencil case set and a mini planner to use for their final half term of Year 6.

“All the teachers were lovely and friendly”

Year 6 Student

The challenge was on as students competed with one another to be the winner of the Planner Quiz, as well as successfully completing a Time Management Exercise, which helped students to practise their organisation skills ready for Year 7.

Throughout the week, each school has visited us for their own Transition Day and it really was fantastic to see everyone ready for the school day with their equipment and planners. They met with Mr Carr, who will be their Guidance Manager right through from Year 7 to Year 11, as well as working with our brilliant attendance and family liaison team.

“The orienteering was good because I feel less worried now about getting lost.”

Year 6 Student

It certainly was an action-packed day of orienteering, Spanish and movie making, as well as trying out our delicious school lunches in the Dining Hall. A particular highlight for me was meeting families and carers of our new intake at our coffee mornings after the Welcome Assembly.

All Year 6 students who will be joining us in September are now part of our highly

successful Accelerated Reader Scheme and have been issued with their first book to get them off to a flying start.

We hope they enjoy their summer reading, come back ready to complete their first quiz and gain those all-important first points on our leader board!

Finally, on the 1st July, the whole year group came together for their induction day; a fantastic day of exciting lessons as well as sporting activities expertly organised and led by Mr Bell, our Transition Co-ordinator. Our staff were all incredibly impressed by the students' positive attitudes and enthusiasm throughout the day and it is always great to see how quickly students begin to make new friends. The expert help provided by our Year 7 and 8 students certainly helped everything to run smoothly.

“I really enjoyed meeting everyone today and am feeling more confident about starting high school in September.”

Year 6 Student

Following the Induction Day, it was our pleasure to meet with each and everyone of our Year 6 students and their families for their one to one meeting. What a fantastic way to get to know our students and families as well as ensure they have everything they need to make a successful start to GSHS.

“It's been very useful to come in this morning and see exactly where my child will be in September.”

Year 6 Parent

Mr Bell, Mr Carr and I would like to say a huge thank you to all the staff involved in this year's transition activities.

Well done Year 6! You have made a brilliant start already to your journey with us and we are very much looking forward to seeing you all in September.

Follow us on twitter @GSHS-transition to find out more about primary to secondary transition at GSHS

Mrs L Dunn: Assistant Headteacher

This Is Creative Enterprise TICE

TICE started with 40+ amazingly talented musicians ...

Firstly for the 'TICE Insight' stage we made our way to the YMCA studios. While we were there we got to know everyone very quickly. Sam, our mentor, then put us in a group. After being taught about the music industry, we were set off to write a part of a song. Each group was given a category to work on. We then performed it. This was great to gain confidence on the first day.

25-30 of students got through this stage...

Next, for the TICE Explore stage we discovered many sides to music.

On day one of the 'Explore' stage we made our way to Gateshead College, where we were shown how to change a songs genre with an example from our mentor. We were then shown around the college and advised of what courses they had to offer. Then we were allocated a music studio with a group and we got to work.

A few hours later, we performed. All the performances were amazing!

On the last day of the 'Explore' stage, we visited The O2 Academy, Apple Store and Loft Studios. In the O2 Academy we went into some of the dressing rooms and the MAIN stage. (Let's just say we were all stunned to be standing where some of the most famous people had sung.) Then in The Apple Store, we were each given an ipad where we went on 'Garage Band' to create our own tunes using different instruments.

After that, we made our way to Loft Studios.

When we were there, we saw the recording studio and the mixing suite.

Only 15 students made it through to the very end!

During the Create stage we worked with other people from different schools and we had to write our own songs.

We had three days to do so!

This was a challenge in its own right as we were put under stressful time restrictions to be able to write our own song with harmonies and for it to be perfect, all from scratch!

There were three topics. One was about Space and we had to write a song about Space travel; the second was called unplugged and we had to write a song using acoustic instruments, and the third was called 'A Song for Nana' and this was a song related to dementia sufferers to help bring back memories.

Then we did a performance to the rest of the Music Team on the TICE 2019 PROGRAMME as a practice for the big night,

The final show is always a big farewell to TICE and everyone who runs it, The mentors and the founders. We got to the university and ran through everything.

Time flew while we rehearsed. Before we knew it, it was time to sit down and get ready to show all of our friends, family, teachers and mentors what we had been doing for the past three days. Just before the night ended, we had certificates given to us to congratulate ourselves and for memories. We all had time to say goodbye and thank you to everyone

who we worked with.

This was an amazing opportunity and we all enjoyed it. We wish the next years TICE students a big good luck and hope they have an amazing time and hope it will be as successful as ours.

"Overall, I fully enjoyed my time at TICE and would recommend TICE to anyone who is interested. It is a chance to learn new things that you wouldn't learn in a normal lesson." Summa Daniels Year 9.

"Overall, this was a great experience for myself as I gained confidence, friends, inspiration and memories. I loved being involved in the industry that I love and I would 100% recommend TICE to anyone in following years. All of the mentors were amazing and I wouldn't have been able to do this without them, so thank you!" Ellie Walker Year 9

"I have loved every minute of TICE and I'm going to miss it loads. The experience has been great. I would recommend this to everybody who is interested in Music, Creative Writing, Photography Illustration, Graphics and Fashion. Thank you so much to all Teachers who allowed us to go I am very grateful that I had this opportunity." Erin Kerr Year 9.

Summa Daniels, Erin Kerr and Ellie Walker

Year 9 Students

Attendance Matters

This year has seen the overall school attendance reach a thirteen year high at 95.3%.

This has been well supported by the 120 students who have an outstanding 100% this year. The support from parents has been overwhelming and in turn this has supported student progress and attainment across the school.

This years Tutor Group with the best attendance is 7CG with 97.8% closely followed by 7AI & 8JE both level with 97.4%.

It really has been a fantastic year for attendance. 410 students from Year 7 - Year 11 have an attendance over 98% which we expect to see increase again next year.

"Upon accepting the prestigious award Mr Grange commented "I am delighted with the start my Tutor Group has made this year"

We would like to thank parents and carers for all of your support this year and wish you all a fantastic summer break.

Mr Patrick and Mrs S Mould: Educational Welfare Officer; Attendance Clerk

Sporting Success

Year 9 Football League Cup Champions

The Year 9 football team beat Marden High in the final of the League Cup played at Wallsend Boys Club. In a closely contested match, the winning goal was scored by Owen Mitchell from the penalty spot. A great achievement from a talented group of players; congratulations to all those involved.

Mr M O'Dea: Curriculum Leader; PE

'We're all in this together'

The Year 7 and 8 dance group represented GSHS at the North Tyneside Dance Festival at the Whitley Bay Playhouse.

This involved performing their 'We're all in this together' routine to a packed audience. They were absolutely fantastic and put in many hours of hard work into rehearsals. They can't wait to do it again next year.

Miss A Tatters: Teacher of PE

Northumberland Schools Beach Rugby Festival

On Friday 21st June 2019 our Year 7 and 8 Girls Rugby Team went to Tynemouth Longsands for a day of 6 a side touch rugby against many other schools from across Northumberland. The aim was to get girls playing, to have fun and enjoy the day and that certainly happened! The sun shone down on the teams working well together, scoring many points and playing against friends from other schools. The students were: Leah Thompson, Eve Gransbury, Isla-Marie Hedley, Erin Jack, Chloe Lambert, Amber Lane, Abbie Logan, Maryann McCartney, Ruby Mowbray, Lauren Scott, Katy Sykes, Kaitlyn Tulip, Lily Windsor, Katie Milligan and Libby Rendall.

Mrs C Patrick: Assistant Curriculum Leader; PE

Record Breaking Season

The Year 7 and 8 athletics season of 2019 will be remembered at George Stephenson High School as the most successful ever. The competition season started in June with the Longbenton and District competition held here. 5 schools competed. They were GSHS, Burnside, Longbenton, Churchill and North Gosforth Academy. The top 3 in each event qualified for the North Tyneside Championships. Over 30 GSHS students performed well enough to make it into the top 3 and therefore qualified for the next round. At the North Tyneside Championships, the standard was obviously higher but that didn't stop 9 students progressing to the County Championships. The performance of the day went to Jamie Holland who comfortably won his

Tyne and Wear Swimming Gala

On the 19th June 2019, George Stephenson High School Year 7 and 8 Swimming Teams went to Sunderland Aquatic Centre and competed in the 50 metre relay medley and freestyle events. All teams including Alex Simpson, Nathan Emslie, Jack Kelso, Zachery Leyland, Eve Gransbury and Jessica Turnbull got to the finals of all their events, which was challenging as there were three heats for some of the races.

Congratulations to all of our team members, but especially to Alexa Ball, Emma Hainsworth, Katy Sykes and Rebecca Moon who finished second in the whole of Tyne and Wear out of a very exciting ten lane race!

Mrs C Patrick: Assistant Curriculum Leader; PE

300m race. The 9 students that went to the County Championships were Nathan Brown (1500m), Ben Bloxham (Javelin), Jamie Holland (300m), Cameron White (Long Jump), Owen Foster (800m), Mac Walton (800m), Adam Todd (Javelin), Logan Pierce (High Jump). Jamie Holland finished again in the top 3 after another fantastic run. He now progresses to the Inter County Championships. Mac Walton came very close to winning his 800m, only to stumble metres from the line. Owen Foster, Cameron White, Nathan Brown and Adam Todd all finished in the top 5 in their events and narrowly missed out on qualifying for the Inter County Championships. Well done to all the boys on a fantastic achievement.
