

## **Student Frequently Asked Questions**

**I accidentally chose an option I didn't want to choose. I haven't submitted it but it won't let me unselect the option.**

If this happens, please just submit the form as it is (don't worry about the options you have put on). It will then ask you at the end if you want to 'submit another response'. Please click on this and complete the form again. This will overwrite the previous form. The deadline for forms to be submitted is 12<sup>th</sup> March.

**What happens if more students choose the course than can be taught it?**

We aim to build the curriculum around your choices but some courses have certain criteria so please check the booklet carefully before choosing.

**What happens if I don't get my first choices?**

As a school we put the blocks together around the choice's students make. This means that more students can study what they want. Sometimes the combination of choices won't work for some. This is why we ask for a reserve choice.

If this applies to you we will speak to you after Easter to explain this and to see if the reserve you originally chose is still the option you want.
