Introduction

The policy statement set out below outlines the school's arrangements for managing the access of our providers/partners to pupils at the school for the purposes of giving them information about the provider's education or training offer. This complies with the school's legal obligations under Section 42B of the Education Act 1997.

Student entitlement at GSHS – what makes us different?

In years 7, 8, 10 and 11 our students receive structured programmes of study which are at the heart of our curriculum offering. In years 7 and 8 this comprises of 1 x 50-minute session a fortnight. In Years 10 and 11 students receive 1 x 50-minute session a month. We place a high importance on our career offering, despite the increasing demands placed on the curriculum nationally. For a detailed breakdown of our planned careers lessons at each Key Stage please see our 'Curriculum Intent', which is available on the school's website (by selecting Departments, then Careers from the main page).

Although students in Year 9 do not receive timetabled careers lessons we recognise that this is a key year for our students as they make their GCSE choices. It is therefore key that we ensure that they receive tutorial support from Connexions to enable them to make the right GCSE choices. This often involves additional 1:1 appointments for students who feel they need extra advice.

From years 7-13 students are entitled:

- To find out about technical education qualifications and apprenticeships opportunities, as part of a careers programme which provides information on the full range of education and training options available at each transition point.
- To hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships – through options evenings, assemblies and group discussions and taster events.
- To understand how to make applications for the full range of academic and technical courses.

Management of provider access requests

Procedure

A provider wishing to request access should contact Leon Allen, Careers Leader
Telephone: 0191 2161115; Email: lallen@gshs.org.uk

Opportunities for access

A number of bespoke events complement our school careers programme. Working with North Tyneside Learning Trust, we are constantly looking for employers/institutions who would like to support us in making improvements to our current offerings. If you feel that this could be you then please do not hesitate to contact Leon Allen using the procedure above. Alternatively, if you would like to be involved in activities with GSHS and other Trust Schools then please contact Angie Patterson at angie.patterson@ntlearningtrust.org.uk

Some of our current events at GSHS include:

The school policy on safeguarding is available at: <https://jump-1-block-2-george-stephenson.s3.amazonaws.com/media/Policies/Safeguarding%20and%20Child%20Protection%20Policy%20Guidance%20Schools.pdf> This sets out the school’s approach to allowing providers into school as visitors to talk to our students.

Premises and facilities

The school will make the main hall, classrooms or private meeting rooms available for discussions between the provider and students, as appropriate to the activity. The school will also make available AV and other specialist equipment to support provider presentations. This will all be discussed and agreed in advance of the visit with the Careers Leader or a member of their team.

Providers are welcome to give promotional resources to Leon Allen, or directly to our Connexions Advisors Jill Anderson, Jill.Anderson@northtyneside.co.uk, or Emma Williams, Emma.Williams@northtyneside.gov.uk, who will ensure that they form both a part of the Y11 Connexions sessions and also the 1:1 support sessions that all our students receive. These sessions currently involve an unbiased discussion about sixth form/further education/apprenticeship options post Year 11. Students also have access to an apprenticeship board which gets updated regularly (from the apprenticeship section of the GOV.UK website) to ensure that we provide unbiased support to all our students to make the most relevant choices for themselves.

As a school we are currently extending our Careers Resources that are available to students in our library and therefore providers are welcome to leave a copy of their prospectus or other relevant course literature with us. This can be done by posting the relevant information The Learning resource Centre at the usual school address. F.A.O. Jean Dickinson, Learning Resources Manager.
